not predictable.
not stereotyped.
not conventional.
not like everybody else.
what makes you **★** special?

The way the world does business has changed forever. To survive and flourish in this era, every business must differentiate itself from the competition.

Every company must innovate and become special. We have always delivered technology innovation to our customers. Now we partner with them in their business to help them become a special company, and to stay special.

To make our customers special, we need people who are above the ordinary. Who have the confidence, the enthusiasm and the insights to partner with customers and deliver solutions that have a significant and positive impact on their business.

And who build strong, lasting relationships with them.

Procurement Professional

IBM is seeking a highly motivated and experienced individual to join our team of procurement professionals. This is primarily sourcing interface for our client and manages the delivery of the sourcing services across multiple categories and stakeholders.

In addition to having excellent client-facing skills, the ideal candidate should have a minimum of 2-5 years of strategic sourcing experience. A core requirement for the position is commodity/category strategic sourcing experience and working knowledge in at least one of the following category areas: Professional Services; HR Services; Contracted Labour; Facilities Operations; Design and Construction Services; Capital Equipment; MRO and Office Supplies; Telecommunications and Networking Equipment; IT Hardware, Software, and Services. Strong interpersonal, oral and writing skills required to conduct daily activities. Requires a significant degree of analytical ability with either a business or technical background. Client Services Procurement responsibilities include, but are not limited to: Responsible for the overall sourcing due diligence activities; Responsible for sourcing and category management solution; Responsible for the completion of all pre-contract sourcing solution activities; Responsible for all post contract sourcing delivery success. Establish and manage dependencies to ensure optimal delivery results. Drive approvals at each stage of the project sourcing process. Drive compliance management activities to support procurement compliance. Ensure client satisfaction with the sourcing services.

Required: Bachelor's Degree and fluency in English.

Tech Lead - Mac OS Development

99X Technology (Formerly Eurocenter DDC) is a company specializing in delivering High Quality Product Engineering services to Independent Software Vendors (ISVs) in the global market place. With offices in Colombo, Sri Lanka and Oslo, Norway, we have an outstanding track record of over 10 years in building and delivering over 100 Software products worldwide.

The Role

We are currently seeking to fill in Tech Lead positions for Enterprise Mac OS product development. You should be an active, intelligent problem solver with strong analytical skills along with the ability to think clearly and independently. You must be a high caliber individual, competent and well experienced in Mac OS X technologies and have the ability to work in a strong and dynamic team, building state-of-the-art Enterprise Solutions catering to the global market.

Job Requirements:

- BSc/MSc Degree in Software Engineering or equivalent
- 3+ years of extensive hands-on experience in Mac OS X application development stack
- Expertise in Cocoa SDK and XCode
- Sound knowledge in Mac OS internals
- Experience in AppStore releases
- Excellent research and troubleshooting skills
- Excellent communication (written and verbal) and interpersonal skills
- Exposure to Desktop Publishing in Mac will be an advantage

As we cater to the European market, you will be required to interact with our European customers and should be willing to travel overseas at short notice. You will receive an attractive remuneration package on par with industry standards along with other fringe benefits.

If you are confident that you are the ideal candidate for this position, e-mail your resume with details of two non-related referees and a recent photograph of yourself to careers@99x.lk, stating "Tech Lead - Mac OS" in the subject line within 10 days of this advertisement. Only shortlisted candidates will be notified.
