Acme Printing & Packaging PLC

Acme Printing & Packaging PLC is a public quoted company listed in the Colombo Stock Exchange and is Sri Lanka's largest manufacturer of flexible packaging. The company which is 65 years old, with a well equipped modern factory located in Piliyandala is the country's only manufacturer of aluminium foil.

The company's products are used by the pharmaceutical and confectionery industries as well as manufacturers of soaps/detergents which include top multinationals, such as Unilever, Nestle, Glaxo, etc.

The company is growing and we need to fill the following position:-

General Manager

The ideal candidate would be an Engineer, Accountant or a Chartered Marketer preferably with an MBA around 40 years of age. Should be able to take full responsibility of running of the company reporting directly to the Chairman and the Board of Directors.

He must be thoroughly familiar on all aspects of general management with a **special emphasis in marketing, sales and customer service** with at least 8 – 10 years of experience in the 'hands on' running of a business unit.

Must be able to manage, motivate and lead a team of professionals including foreign technical experts to excel in meeting the demanding requirements of the company's customers.

Previous experience in a senior management position is important and knowledge of the statutory requirements of a public listed company would be useful.

Since it is important to meet customers frequently, it is essential that the candidate is able to work long hours.

Excellent career prospects, an attractive salary package and a generous performance oriented bonus await the right candidate.

Forward your complete resume with contact details of non-related referees to reach us within 7 days of this advertisement.

**Chairman
Acme Printing & Packaging PLC
1/F, Lakshman's Building,
321, Galle Road, Colombo – 3.**

Supply Chain Manager

Enviro Power Lanka (Pvt) Ltd

KMR Infrastructures inc Of U.S.A and **Silvermill Group** are establishing a BOI-registered Joint Venture (JV) company to offer renewable energy based solutions to industrial/commercial clients requiring combined heat and power services and to supply electricity to the CEB. The near term project under considerations are biomass / comprising dendro (fuelwood) and agro-residue heat /power projects and grid connected solar photovoltaic projects.

The JV is seeking the services of a **Supply Chain Manger** to formulate and implement strategies for inbound supply chain management as well as related logistics of the proposed Plant , particularly to ensuring reliable and adequate supply of predictably priced dendro and agri-residues.

The Job :

Key Responsibilities :

Managing a well organized supplier chain and identifying supply opportunities would be your Key responsibilities. Organizing conferences and workshops for suppliers and developing means of rewarding them, are part of the job too. You should be able to inspire your staff driven with sixth sense which keeps you attuned to an evolving market. Proven experience and knowledge / contacts in the supply sector is an indication of your ability in picking and dealing with, the right suppliers.

Key Deliverables :

Create secure biomass fuel supply arrangements with predictable prices and supply , either via long term land leasers or intercropping agreements with plantations or medium term supply arrangements with biomass handling firms like Coconut processors , paper mills etc.

Scope Of Work :

The Supply Chain Manger will lead and take responsibility in the following areas, among others:

- Identify and negotiate long term dendro and agri-residue-fuel supply contracts with plantation firms, land banks, biomass and agricultural based industries, farmers etc. Lead the price and contract negotiation with suppliers and drive contracts to closure.
- Lead strategic and investment planning of fuel supply chains to ensure Enviro Power Lanka Ltd has adequate and reliable fuel supplies in line with its growth targets, while minimizing risks and price shocks.
- Manage an efficient fuel handling organization to grow, harvest, process and deliver fuel to power plants from all fuel supply arrangements at lowest/ predictable cost. Lead in the identification and development of new suppliers and building their capabilities as needed to achieve product performance and cost targets.
- Development and establish an efficient supply chain for processing, storing and transporting biomass cost effectively. Maintain an optimal fleet configuration and reduce transportation and handling costs for fuel. Develop and maintain warehousing and other inventory infrastructure.
- Identify efficient fuel processing and handling equipment from other economies like Pacific Northwest in USA, firms in Europe to develop cost effective fuel supply chain.
- Lead pricing and market analysis, supplier performance assessment, supply chain efficiency and reliability improvement and report to the CEO, and as required, the Board on biomass fuel supply status and trends.

The Person :

Required Qualifications and Skills:

- Proven ability to develop or handle large quantities of biomass fuel sourcing and ability to negotiate deals with plantations, land banks, farmers, agro-industries etc. Comparable and transferable skills from other supply sectors will be considered positively.
- Demonstrated ability to be forward thinking and to take innovative and proactive decisions rather than being reactive.
- Strong negotiation skills and a good understanding of the legal dimension of contracts, experience driving supply contracts to closure and in contract management for high volume supply chains.
- A minimum of 10 years hands on experience with effective project and staff management, project planning and execution.
- Excellent verbal and written communications in both English and Sinhala Languages and good public relations skills.
- Bachelor's Degree or higher obtained from a recognized University, preferably in Business, Engineering, Agriculture or related field. Diploma in purchasing & supply chain management would be an added advantage.

Age : Above 35 years

Remuneration Package : Competitive remuneration will be offered to the right candidate.

If you are a professional who reveals in making best better, and have experience in supply chain management, this job is for you. Please apply indicating contact Telephone Nos, within 07 days of this advertisement to,
